Delta-Cast®
We know Casting

Delta-Cast® – We Know Casting.

When faced with orthopedic trauma, optimal care is essential for the best healing possible. When it comes to broken bones or injured ligaments, Delta-Cast® is a trusted partner. As the global market leader in Fracture Management, drawing on a strong brand heritage, Delta-Cast® has a comprehensive and innovative portfolio to rely on.

Delta-Cast® takes pride in supporting customers through service and training, providing knowledge and tools to overcome any casting challenge that comes their way.

DELTA-CAST® WIDE RANGE OF THERAPY SOLUTIONS INCLUDE:

Splinting – easy to handle and extremely versatile, these splinting systems meet the demands of modern users.

Plaster of Paris – well-fitting, strong and durable casts for a traditional application.

Cast Tape – designed with ease of application and patient comfort in mind.

Padding & Stockinette – natural and synthetic undercast materials maximize patient comfort during the treatment with a cast.

Cast Removal – durable saws that provide high cutting performance with low noise and vibration levels.

Casting Accessories – from scissors to spreaders, additional adhesive padding and cast soles, a wide variety of accessories to aid technicians and patients.

SYNTHETIC SPLINTING

ORTHO-GLASS® Comfort

Polyester Splinting System - Roll Form and Precut Splints

The soft, cushioning padding of ORTHO-GLASS® Comfort will protect and support even bony prominences. The highly conformable substrate material ensures a well-fitting anatomic splint for long-time wearing comfort.

FEATURES AND BENEFITS

- Highly comfortable padding
- Soft edges of substrate help prevent skin irritations or abrasions
- Double-sided padding covers substrate fully for optimal skin protection
- Radiolucent
- Not made with natural rubber latex

ORTHO-GLASS®

Fiberglass Splinting System and Precut Splints

ORTHO-GLASS® is a cost-effective fiberglass splinting system of choice for every phase of immobilization. Features Interlocking Performance Technology (ILP). ILP eliminates the risk of delamination, ensuring a strong, durable splint.

FEATURES AND BENEFITS

- Better conformability
- No wrong side application
- Easy stretch padding covers all edges
- Roll form eliminates waste
- 7 sizes: 1 inch - 6 inch, 8 inch
- Not made with natural rubber latex

SYNTHETIC SPLINTING

Dynacast® S

Fiberglass Padded Roll Form Splint System

Dynacast® S is a fiberglass splinting system of 7 layers with no wrong side application. Easy stretch padding covers all edges. It is cost effective, eliminating expensive pre-formed splints. Roll form allows for no waste.

FEATURES AND BENEFITS

- Saves time; no plaster clean-up
- Fast set-up; quick patient turn around
- Molds easily for custom fit
- Lightweight and durable
- Patient friendly; fits easily under clothing
- Comfortable to wear
- Compact packaging

Specialist®

Plaster of Paris Bandages & Splints

Specialist® Plaster of Paris uses a time-tested formula and manufacturing process that produces a consistent plaster that is uniformly coated and adhered to the gauze. This unique formula offers minimal plaster loss to ensure maximum strength and a smooth cast finish.

FEATURES AND BENEFITS

- Consistency
- High dry/wet plaster retention
- Moisture-resistant packaging
- Excellent strength
- Smooth finish

Delta-Lite® Conformable

Fiberglass Cast Tape

Delta-Lite® Conformable creates lightweight, strong, long lasting porous casts. Its high conformability and our resin formulation offer superb anatomically molded casts.

FEATURES AND BENEFITS

- Low tack resin - use the gloves of your choice
- Primary and secondary casting
- Rigid immobilization
- High conformability
- Secure lamination
- Three-dimensional stretch
- Weight bearing in approximately 20 minutes
- 3 - 5 minute set time

Delta-Cast® Conformable

Polyester Cast Tape

Delta-Cast® Conformable is an easy-to-use polyester cast tape that produces versatile, lightweight and strong casts with high conformability. Ideal for applications where patient fit and comfort are critical.

FEATURES AND BENEFITS

- High conformability
- Smooth finish and soft edges
- Rigid immobilization
- High radiolucency
- Excellent lamination between layers
- Excellent for FCT casting or removable casts
- Not made with natural rubber latex

Delta-Cast® Elite

Polyester Cast Tape

Delta-Cast® Elite is a polyester cast tape that offers strength and durability. It features extensible yarns that provide excellent moulding capabilities and a smooth cast surface for patient comfort.

FEATURES AND BENEFITS

- Smooth finish and soft edges
- Rigid immobilization
- High radiolucency
- High conformability
- Excellent lamination between layers
- Excellent alternative to fiberglass cast tape
- Not made with natural rubber latex

SYNTHETIC CAST TAPE

Delta-Cast® Prints

Polyester Printed Cast Tape

Add personality to casts with colorful printed casting material. In addition to helping relieve patient anxiety and making casts more enjoyable to wear, the finished cast is strong and lightweight. Patterns are colorfast and will not interfere with radiographic viewing.

FEATURES AND BENEFITS

- Same advantages as Delta-Cast® Elite
- Unique style
- Long lasting, vibrant prints
- Not made with natural rubber latex

Delta-Cast® Print Mix Packs include 5 patterns: two rolls of each (Pastel Print, Paw Prints, Soccer Ball, Camouflage, Pink Camouflage)

Delta-Cast® Soft

Polyester Semi-Rigid Cast Tape

Delta-Cast® Soft is a semi-rigid polyester cast tape, which allows for greater range of movement and earlier mobility to reduce some of the problems of rigid immobilization, such as muscle atrophy.

FEATURES AND BENEFITS

- Smooth finish and soft edges
- High radiolucency
- Provides support while allowing a limited range of motion
- Can be removed with scissors or by unwrapping
- Not made with natural rubber latex

Delta-Cast® Soft Mix Packs include 5 patterns: two rolls of each (Hearts, Paw Prints, Red, Blue, Black)

ORTHOPEDIC PADDING

Specialist®

Cotton Blend Cast Padding

Specialist® Cotton Blend Cast Padding has a unique micropleated design for excellent conformability, protection and ease of application without tucking or tearing.

FEATURES AND BENEFITS

- Micropleated construction provides excellent conformability
- Highly absorbent
- Cotton rayon blend
- Easy application
- Not made with natural rubber latex

REF	Size	Unit of Measure
9062	2" x 4 yds	144 rolls / case
9043	3" x 4 yds	72 rolls / case
9044	4" x 4 yds	72 rolls / case
9046	6" x 4 yds	36 rolls / case

Specialist® Sterile

Cotton Blend Cast Padding

Specialist® Sterile uses a unique micro-pleated design that offers exceptional stretch and conformability. Specialist® Sterile's blended fiber construction allows moisture from the casting material to relax the pleats, resulting in a uniform, smooth surface that helps reduce the risk of ridges and pressure points on the skin. Its cotton/rayon blended construction complements both plaster and synthetic casts. The cotton padding material may contain portions of the cotton seed (<0.25cm). Its Micro-pleated construction reduces the need for tucking or tearing. Specialist® Sterile is also easy to handle with gloves.

REF	Size	Unit of Measure
9062S	2" x 4 yds	50 rolls / case
9043S	3" x 4 yds	50 rolls / case
9044S	4" x 4 yds	25 rolls / case
9046S	6" x 4 yds	25 rolls / case

FEATURES AND BENEFITS

- Excellent conformability
- Dual use; excellent for post-op or under casts
- Easy application
- Highly absorbent

ORTHOPEDIC PADDING

Specialist® 100

Cotton Cast Padding

Specialist® 100 has the product features cotton users desire. The soft, 100% cotton material feathers and self-bonds to create a smooth undercast surface. Specialist® 100 is hand-tearable and applies easily.

FEATURES AND BENEFITS

- Breathable material helps to avoid skin maceration
- Low linting, 100% cotton
- Excellent cohesion
- Hand tearable
- Not made with natural rubber latex

REF	Size	Unit of Measure
9082	2" x 4 yds	144 rolls / case
9083	3" x 4 yds	72 rolls / case
9084	4" x 4 yds	72 rolls / case
9086	6" x 4 yds	36 rolls / case

Specialist® 100 Sterile

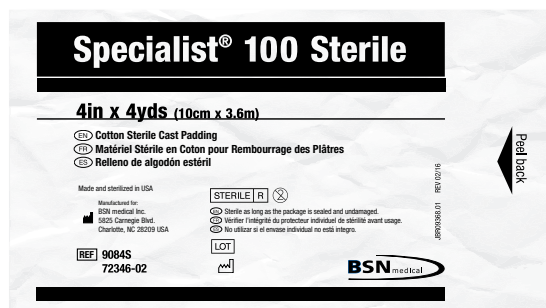

Cotton Cast Padding

Specialist® 100 Sterile is highly cohesive, which allows for stack layers of custom padding and prevents bunching or slipping under the cast. Its low profile featuring fewer layers allows for an intimate mold. More layers provide additional cushioning. It easily tears down by hand without neck-down, and works around small appendages without scissors. Specialist® 100 Sterile is ideal when absorbency is preferred and is suitable for both synthetic and plaster casting materials.

FEATURES AND BENEFITS

- Highly cohesive
- Easy tear
- Smooth feathering
- Easy application
- 100% cotton

REF	Size	Unit of Measure
9082S	2" x 4 yds	50 rolls / case
9083S	3" x 4 yds	50 rolls / case
9084S	4" x 4 yds	25 rolls / case
9086S	6" x 4 yds	25 rolls / case

ORTHOPEDIC PADDING

Sof-Rol®

Rayon Absorbent Cast Padding

Sof-Rol® is a highly absorbent rayon material. This soft natural material creates a comfortable undercast surface for either synthetic or natural casting materials.

FEATURES AND BENEFITS

- Highly absorbent
- Easy application
- 100% viscose rayon
- Not made with natural rubber latex

REF	Size	Unit of Measure
9052	2" x 4 yds	144 rolls / case
9033	3" x 4 yds	72 rolls / case
9034	4" x 4 yds	72 rolls / case
9036	6" x 4 yds	36 rolls / case

Sof-Rol® Sterile

Rayon Absorbent Cast Padding

Sof-Rol® Sterile is more absorbent than cotton. Conformable stretch can form narrow widths suitable for wrapping digits or small anatomies. Its 100% surgical grade needle-loomed rayon complements both plaster and synthetic cast.

FEATURES AND BENEFITS

- Highly Absorbent
- Easy Application
- 100% viscose rayon
- Not made with natural rubber latex

REF	Size	Unit of Measure
9052S	2" x 4 yds	20 rolls / case
9033S	3" x 4 yds	20 rolls / case
9034S	4" x 4 yds	20 rolls / case
9036S	6" x 4 yds	20 rolls / case

ORTHOPEDIC PADDING

Protouch® Natural

Rayon Cast Padding

Protouch® Natural Cast Padding is a soft and comfortable viscose rayon that is more absorbent than cotton. Excellent conformability and easy application provide a quality undercast surface.

FEATURES AND BENEFITS

- Product is designed to absorb moisture and draw it away from the skin and into the body of the fleece
- Good loft
- Not made with natural rubber latex

REF	Size	Unit of Measure
30-3061	2" x 4 yds	12 rolls / bag
30-3062	3" x 4 yds	12 rolls / bag
30-3063	4" x 4 yds	12 rolls / bag
30-3064	6" x 4 yds	12 rolls / bag

Delta-Rol®

Synthetic Cast Padding

Delta-Rol® is made of breathable synthetic material. Its conformable stretch allows narrow widths fitting around small anatomies without cutting and tearing. Also available in sterile version.

FEATURES AND BENEFITS

- Conformable stretch
- Low linting
- Synthetic fibers
- Available in sterile version
- Not made with natural rubber latex

REF	Size	Unit of Measure
Delta-Rol® Synthetic Cast Padding		
6882	2" x 4 yds	72 rolls / case
6883	3" x 4 yds	36 rolls / case
6884	4" x 4 yds	36 rolls / case
6886	6" x 4 yds	18 rolls / case
Delta-Rol® Sterile Synthetic Cast Padding		
6882S	2" x 4 yds	20 rolls / case
6883S	3" x 4 yds	20 rolls / case
6884S	4" x 4 yds	20 rolls / case
6886S	6" x 4 yds	20 rolls / case

Protouch[®] Synthetic

Synthetic Cast Padding

Protouch[®] Synthetic Cast Padding is made of water shedding synthetic material. It is autoclavable in its paper wrapper for sterile procedures. High loft and fleece density provide extra cushioning.

FEATURES AND BENEFITS

- Excellent cushioning
- Soft conformability
- Excellent feathering
- Not made with natural rubber latex

REF	Size	Unit of Measure
30-3051	2" x 4 yds	12 rolls / bag
30-3052	3" x 4 yds	12 rolls / bag
30-3053	4" x 4 yds	12 rolls / bag
30-3054	6" x 4 yds	12 rolls / bag

Delta-Dry®

Water Resistant Padding

The patented Delta-Dry® material offers water resistance. The open knit structure of the fibers accelerate drainage after submerging in water. The patient's body temperature will then evaporate residual moisture quickly through the airy mesh (high MVTR). In this way, cast and skin dry quickly and skin feels dry in about 90 minutes after daily hygiene.

FEATURES AND BENEFITS

- Allows patients to shower, swim, bathe and wash hands
- Helps reduce odor under the cast
- Excellent conformability to body contours
- Provides comfortable, fast-drying casts
- Not made with natural rubber latex

REF	Size	Unit of Measure
7344300	2" x 2.6 yds	12 rolls / box
7344301	3" x 2.6 yds	12 rolls / box
7344302	4" x 2.6 yds	12 rolls / box

AquaCast® Liners

Waterproof Cast Padding

AquaCast® Liner is a comfortable waterproof, breathable cast padding for use under waterproof casting materials.

FEATURES AND BENEFITS

- Quick drying of cast allows patients to bathe, swim and exercise
- Decrease odor and enhance hygiene with the ability to thoroughly wash and rinse skin
- Supports favorable skin condition following cast removal
- Less itching due to smooth material surfaces
- Less recasting due to wet or damaged casts
- Not made with natural rubber latex

ORTHOPEDIC PADDING

Delta Terry-Net™

Adhesive Felt Liner

Delta Terry-Net™ Adhesive Felt Padding is an adhesive orthopedic felt, used for added patient comfort. Its adhesive backing makes attaching the padding simple and easy. It may also be used as a cast edge padding.

FEATURES AND BENEFITS

- Soft orthopedic felt
- Adhesive back
- Not made with natural rubber latex

REF	Size	Unit of Measure
54012	23" x 39"	1 unit / case

Delta Terry-Net™

Adhesive Terry Cloth and Foam Liner

Delta Terry-Net™ Adhesive Cloth/Foam Padding provides added protection and cushioning by combining a layer of soft terry cloth bonded to 1/8" foam. The adhesive backing makes attaching the padding simple and easy.

FEATURES AND BENEFITS

- Open cell foam
- Adhesive back
- Comfortable terry cloth cushion
- Not made with natural rubber latex

REF	Size	Unit of Measure
55012	23" x 39"	1unit / case

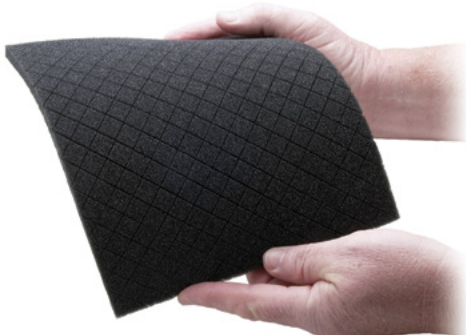

Sifoam™

Interface Adhesive Back Padding

FEATURES AND BENEFITS

- Dissipates pressure around wounds
- Helps prevent shear
- Is compressible
- Unloads weight

ORTHOPEDIC STOCKINETTE

Protouch[®] Synthetic

Synthetic Stockinette

Protouch[®] Synthetic Stockinette is designed for patient protection under Plaster of Paris and synthetic casting materials, and is available in a wide range of sizes. It is contained in an easy-to-use dispensing box for easy storage and handling.

FEATURES AND BENEFITS

- Synthetic fibers
- Good conformability
- Not made with natural rubber latex

REF	Size	Unit of Measure
30-1001	1" x 25 yds	1 roll / box
30-1002	2" x 25 yds	1 roll / box
30-1003	3" x 25 yds	1 roll / box
30-1004	4" x 25 yds	1 roll / box
30-1006	6" x 25 yds	1 roll / box
30-1008	8" x 25 yds	1 roll / box

Terry-Net[™] S

Synthetic Terry Cloth Stockinette

Terry-Net[™] S Synthetic Terry Cloth Stockinette is constructed of breathable synthetic fibers to help avoid skin maceration. The terry-net design provides additional padding and stretches to three times its normal width to conform to complex anatomies.

FEATURES AND BENEFITS

- Soft synthetic yarns
- Terry cloth design
- Stretches three times normal width
- Dispensing box

REF	Size	Unit of Measure
53012	2" x 15 yds	2 rolls / case
53013	3" x 15 yds	2 rolls / case
53014	4" x 15 yds	2 rolls / case

ORTHOPEDIC STOCKINETTE

Terry-Net™ Thumb Spica

Precut Synthetic Terry Cloth Stockinette

Terry-Net™ Synthetic Thumb Spica is constructed of breathable synthetic fibers in pre-cut versions with built-in thumb liner. The terry-net design provides additional padding.

FEATURES AND BENEFITS

- Provides a smooth, initial surface for cast application
- Easily conforms to body contours

REF	Size	Unit of Measure
53120	2" x 16" - Short Arm	10 / box
53121	2" x 19" - Long Arm	10 / box
53101	3" x 16" - Short Arm	10 / box
53102	3" x 19" - Long Arm	10 / box

Delta-Dry® Stockinette

Water Resistant Stockinette

Delta-Dry® Stockinette is a water resistant stockinette comprised of a 3D knitted structure using Nylon Yarns. Ultrasonic techniques have been used to form a low-profile seam to give a conformable tubular product with transverse stretch.

FEATURES AND BENEFITS

- Smooth, initial surface for cast application
- Water resistant material helps patients maintain hygiene and remain active
- Feels dry in 60 minutes, completely dry in 120 minutes
- Helps reduce macerations, the risk of pressure points, itching and cast odor
- Can be applied like regular stockinette
- Improved stretch characteristics that easily conforms to body contours
- Not made with natural rubber latex

REF	Size	Unit of Measure
7456400	1 in x 25yds	2 rolls / case
7456401	2 in x 25yds	2 rolls / case
7456402	3 in x 25yds	2 rolls / case
7456403	4 in x 25yds	2 rolls / case
7456404	5 in x 25yds	2 rolls / case

Delta-Dry® Softliner

Water Resistant Softliner

Delta-Dry® Softliner is a one-step water resistant stockinette and undercast padding combined. Water resistant undercast padding can help alleviate skin maceration problems which generally require additional treatment or therapy and eliminates the need for frequent cast changes.

FEATURES AND BENEFITS

- Can be applied like regular stockinette
- Improved stretch characteristics that easily conforms to body contours
- Pleasant on skin, provides soft, comfortable feel
- provides good cushioning reducing the risk of rubbing and cast sores
- Not made with natural rubber latex

REF	Size	Unit of Measure
7277901	1 in x 11 yds	1 rolls / case
7277902	2 in x 11 yds	1 rolls / case
7277903	3 in x 11 yds	1 rolls / case

7277905	5 in x 11 yds	1 rolls / case

Delta-Dry® Pantaloos

Water Resistant Pantaloos

This pre-shaped, soft and water-resistant liner was developed on the basis of the proven, patented Delta-Dry® technology to simplify the treatment of Developmental Dysplasia of the Hip or Femur Fractures. Its stretch properties allow for an easy application and minimize creasing for a reduced risk of pressure marks.

FEATURES AND BENEFITS

- Comes in 3 sizes in a pre-cut shape
- Water resistance helps maintain patient's hygiene¹
- Enables bathing and flushing
- High water vapor permeability - dries in 90 minutes
- Permits an easy application, a suitable fit with little creasing
- Soft, flexible and cushioned for infant skin
- Not made with natural rubber latex

REF	Size	Unit of Measure
7336500	Size 1 (thigh ≤ 25 cm)	1 / each
7336501	Size 2 (thigh 25-29.5 cm)	1 / each
7336502	Size 3 (thigh ≥ 29.5 cm)	1 / each

ORTHOPEDIC PANTALOON

Hipster® Pantaloons® Liner

Waterproof Pantaloons

Hipster® Pantaloons® Liner by AquaCast® is a waterproof, breathable hip spica liner. It's innovative product design includes extra material in the perineal area to allow for easier cuffing. Slanted legs allow for better fit and less bunching of material.

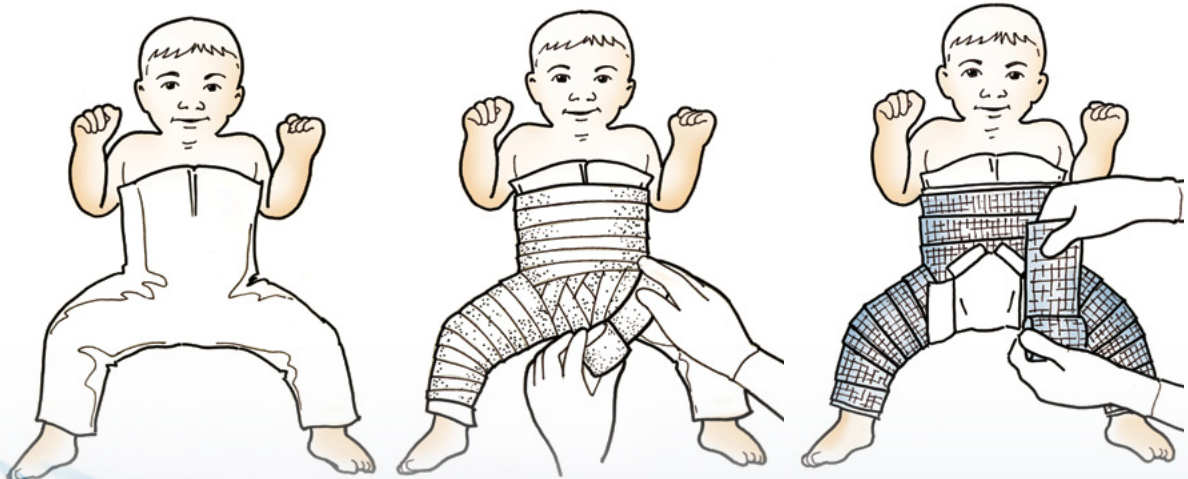

FEATURES AND BENEFITS

- Single piece design creates a barrier that protects the padding from soiling
- Waterproof surface facilitates cleaning of excrement and urine from the skin
- Breathability keeps skin drier by allowing water, moisture and perspiration to evaporate
- With the addition of AquaCast® Liner Padding, the entire cast can be waterproof, further enhancing the user's experience

Cutimed® Off-Loader Select

Total Contact Cast System

FEATURES AND BENEFITS

- Totally rigid cast for effective off-loading
- Non-removable to help improve patient compliance
- Customizable and adaptable to structural foot deformities
- Dries and hardens in 20 minutes, allowing same-day treatment

Fields of application include:

- Diabetic foot ulcers
- Charcot foot and joint injuries
- Post-op immobilization following deformity reconstructions

American Orthopaedic™

Cast Cutter

FEATURES AND BENEFITS

- Specially designed for rugged use: the perfect tool with power and endurance
- Internally lubricated for longer service
- Switch is designed and placed so that it will not break if dropped
- Hex drive provides 4 blade rotations extending blade life by 50% compared to similar competitive models
- One year limited warranty

REF	Description	Unit of Measure
0295-200	Cast Cutter 115V HEX D	1 / each
0295-202	Cast Cutter 115V PIN D	1 / each

American Orthopaedic™

Cast Dust Vacuum

FEATURES AND BENEFITS - Portable Cast Dust Vacuum

- Lightweight and mobile; easy movement from room to room or patient to patient
- Unique lift-out disposable filter cartridge makes disposal quicker, easier and cleaner than messy bags
- Quiet operation for patient comfort
- Function that allows the saw and vacuum to be turned on simultaneously with contact of the cast

REF	Description	Unit of Measure

FEATURES AND BENEFITS - Cast Dust Vacuum

- Unique disposable filter cartridge
- Self-contained unit conveniently stores cast spreader, scissors, replacement blades and the filter storage caps
- Lightweight construction and convenient handle provide easy mobility
- Versatile; attaches easily to most cast cutters

American Orthopedic™ Cast Saw Blades

FEATURES AND BENEFITS

- “Universal Hub” fits most popular brands of cast cutters, both pin and hex drive
- Hexagon drive provides 6 blade rotations for hexagon drive cast cutters

1. Electropolish blades.
Sectioned Blades are ideal for removing small segments or “cutting windows”. Available only with pin drive hub.

2. PTFE coated blades.

3. Titanium Nitride “Gold” coated blades.

4. Dicronite® coated blades.

All blades are manufactured with stainless steel, hardened and supplied with different finishes to increase blade life.

Saw Stop® DE-FLEX™

Protective Strip by AquaCast®

Saw Stop® DE-FLEX™ protective strips are tough, waterproof, flexible ribbons that provide an added layer of protection from a cast saw. Two styles are available, both of which are 1¼ inches wide and 10 feet long and feature adhesive backing for ease of use.

BLUE Saw Stop DE-FLEX Strips: This proprietary blue material is used in circumstances where the cast technician feels a layer of protection is needed. The material is designed to work with any padding material.

WHITE Saw Stop DE-FLEX Strips: This material provides all of the protection of our trademark Blue Saw Stop DE-FLEX Protective Strip, but is thinner, more conformable, more durable, and dries more rapidly. It should be used in the most demanding applications.

FEATURES AND BENEFITS

- Adhesive Backing for easy application
- Not made with natural rubber latex

Zip Stick

Cast Removal Aid

This convenient cast aid provides additional patient protection during cast removal. The flexible stick slides under the cast and provides a smooth path for scissors or cast saw. Standard and metric rule adds functionality.

REF	Description	Unit of Measure
294304	Zip Stick White	1 / each

Accessories

This sturdy pail can be used for water supply for cast activation.

This sturdy foam knee rest is covered in washable vinyl for easy clean-up. The knee rest is used to aid in positioning a patient’s limb for casting and to provide additional patient comfort during the casting process.

REF	Description	Unit of Measure
7204626	Essity Logo Casting Pail	1 / each
67400002	Knee Rest	1 / each
58050000	Adjustable Cast Stand	1 / each

This adjustable cast stand makes applying casts easier and more comfortable for the patient. The upright can be raised or lowered from 31.8 to 53.3 cm to accommodate clinician and patient. Includes reusable plastic drip pan.

Actimove® Cast Protector

Waterproof

Cast protector to cover casts and bandages against water during bathing and showering.

FEATURES AND BENEFITS

- Allows for daily hygiene as casts and bandages are protected from water during bathing and showering.
- For safety during use, non-skid pad on the foot piece helps to prevent slipping. (applicable to the leg cast protector only)
- Reusable as elastic opening stays tight after multiple uses.
- Easy to apply through slip-on design.
- Suitable for those sensitive to latex, as this product is not made with natural rubber latex.

Actimove® Post-Op Shoe

Open Toe Shoe

Provides the foot with solid protection and accommodates bulky bandages with ease.

FEATURES AND BENEFITS

- Patients can feel safe while walking due to the non-slip sole
- Easy to apply and remove
- Protects the cast from water as the shoe is water resistant
- Lightweight
- Suitable for those sensitive to latex, as this product is not made with natural rubber latex
- For stock keeping, wearable or usable on either left or right foot.

IRRIGATION SHIELDS

SplashCap®

Wound Irrigation Shield

SplashCap® is a twist-on wound irrigation shield that allows a clinician to deliver hundreds of milliliters of irrigation fluid directly to a wound in seconds.

FEATURES AND BENEFITS

- For wound irrigation in the ER, clinics and urgent care.
- Improves Safety & Productivity
- Faster Wound Irrigation: Improved productivity and faster turnaround times.
- Built-in Nozzle: Avoids the risk of needle sticks from poking holes in bottles.
- Built-in Shield: Reduces splattering when using bottle caps without shields.

REF	Description	Unit of Measure
10015	Wound Irrigation Shield	25 / case

AbscessCap™

Abscess & Deep Wound Irrigation Shield

AbscessCap™ is a twist on abscess irrigation shield that allows a clinician to easily irrigate wounds below the surface of the skin.

FEATURES AND BENEFITS

- Protruding Nozzle – allows penetration below the surface
 - one-handed probing
 - break up loculations
 - irrigate tunneling wounds
- Fits most standard saline bottles – delivers high volumes in a shorter amount of time
- Fits any standard syringe – versatility between preferred irrigation methods
- Built In Splash Shield – permits safe visualization of wound target while reducing splatter
- Large Nozzle Opening – creates a low pressure

REF	Description	Unit of Measure
7446806	Abscess & Deep Wound Irrigation Shield	50 / case

IRRIGATION SHIELDS

EyeCap™

Eye Irrigation Shield

EyeCap™ is a twist-on eye irrigation shield that allows fast and easy eye irrigation. Use EyeCap™ for immediate eye irrigation at triage, by EMS or for occupational splash injuries. EyeCap™ can serve as a bridge to other irrigation methods.

FEATURES AND BENEFITS

- Don't wait to Irrigate!™
- Non-invasive
- Fits most standard saline bottles
- Simple to use
- Instantly begin dilution treatment
- Comfortable for patient
- Less staff required

REF	Description	Unit of Measure
7446802	Eye Irrigation Shield	25 / case

EarCap™

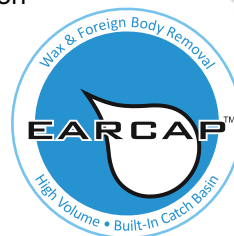

Ear Irrigation Shield

The product has a built-in reservoir for high volume irrigation, and built-in catch basin to keep the mess under control and to “see what you get” to measure success.

FEATURES AND BENEFITS

- Easy to use
- Extremely cost effective
- No splatter, irrigation fluid contained in built-in catch basin
- Fits most standard saline bottles for hi-volume irrigation

REF	Description	Unit of Measure
7446810	Ear Irrigation Shield	30 / case

BANDAGING AND TAPING

ELASTIKON®

by Actimove®

Elastic Adhesive Tape

Soft cotton elastic tape that conforms to joints such as elbows, knees and shoulders. Reliable compression for support of sprains, strains and muscle injuries.

FEATURES AND BENEFITS

- Allows skin to breathe and moisture to pass through
- Treatment of conditions which require limitation of movement, e.g. sprains, sports injuries
- Prophylactic use in active sport
- Retention of dressings and devices, e.g. post-orthopedic and general surgery or over a muscular wound

***Caution:** This product contains natural rubber latex which may cause allergic reactions.

REF	Size	Color	Unit of Measure

TensoSport®

Elastic Adhesive Tape

This porous elastic adhesive bandage is made from a high-quality extensible cloth, providing compression and support. The reliable adhesive keeps the bandage firmly adhered even throughout lengthy treatment.

FEATURES AND BENEFITS

- Porous adhesive that allows skin to breathe
- Firm reliable adhesive
- Fluffy edges for comfort
- Central yellow line for accurate overlap

***Caution:** This product contains natural rubber latex which may cause allergic reactions.

Lightplast® Pro

Light Elastic Adhesive Tape

Lightplast® Pro is a hand-tearable light elastic adhesive tape, suitable for light support or compression. The unique fabric backing helps to conform to body movement, and make it ideal for all-purpose taping.

FEATURES AND BENEFITS

- Hand-tearable
- Good adhesive strength
- Lightweight
- Conforms well
- Lengthwise elastic

***Caution:** This product contains natural rubber latex which may cause allergic reactions.

Isoband®

Elastic Light Support Bandage

An elastic, multi-purpose bandage that is ideal for light support, compression, fixation of splints and dressing retention. This bandage is washable and reusable and highly absorbent to secretions and perspiration.

REF	Size	Unit of Measure
01958	6" x 5.5 yds	50 rolls / case
01959	8" x 5.5 yds	35 rolls / case

BANDAGING AND TAPING

Rigid Cloth Porous Adhesive Strapping Tape

Support and conformity helps protect against sprains and injury. Adheres securely yet tears easily by hand.

FEATURES AND BENEFITS

- High tensile strength
- 100% cotton back cloth allows perspiration to escape

***Caution:** This product contains natural rubber latex which may cause allergic reactions.

REF	Size	Unit of Measure
5188	1.5" x 15 yds	32 rolls / case (Speed Pack)

Rigid Cloth Porous Adhesive Strapping Tape

For prophylactic use in active sport. Ideal for conditions requiring immobilization and support. Adheres securely yet tears by hand.

FEATURES AND BENEFITS

- Highest tensile strength
- 100% cotton back cloth allows perspiration to escape

***Caution:** This product contains natural rubber latex which may cause allergic reactions.

REF	Size	Unit of Measure
5104	1" x 10 yds	144 rolls/case (12 rolls/box, 12 box/case)
5190	1.5" x 15 yds	32 rolls / case (Speed Pack)

Rigid Strapping Tape

Leukotape® P is a high strength rigid strapping tape, with a strong adhesive. It is porous and handtearable, yet offers support for sprains and strains.

FEATURES AND BENEFITS

- High strength adhesive

***Caution:** This product contains natural rubber latex which may cause allergic reactions.

REF	Size	Unit of Measure
76168	1.5" x 15 yds	30 boxes / case

Leukotape® K

Kinesiology Tape

The wave pattern adhesive of Leukotape® K allows air to circulate. It is stretchable and works ideally with the skin's natural elasticity.

FEATURES AND BENEFITS

- High wearing comfort and skin friendly, with a formulation not made with natural rubber latex
- Stays in place up to 9 days, even after showering or sweating
- Residue free removal
- Dermatologically tested

Actimove® Sling Comforts

Arm Sling – Dispenser Box

Customizable, comfort arm sling for multi-application in a practical dispenser box.

FEATURES AND BENEFITS

- Provides support to the arm, elbow and shoulder by securely holding the forearm in a flexed position.
- Good patient wearing comfort due to the complete, open construction and reduced neck pressure through the 5.5 cm / 2 1/4 in. wide and stable sling replacing a separate neck pad.
- Quick and easy to apply or remove with one hand thanks to the hook and loop Y-tabs.
- Suitable for those sensitive to latex, as this product is not made with natural rubber latex.
- For stock keeping, long shelf life of five years.
- For better hygiene, product or part of the product is machine washable. Always read the washing instructions on the packaging.

REF	Size	Color	Unit of Measure
7285918	5.5 cm x 12 m / 2.25" x 13 yds	Blue	2 / rolls
