Objective

I am an Electrician with sixteen years of commercial electrical experience. I have all commercial related tools such as hydraulic benders, cutters, pullers, pipe threaders, Hilti drills, and all hand tools. I can provide my own reliable transportation. Skillful in performing electrical installations, maintenance and repairs in schools, plant facilities and residential buildings. I am knowledgeable in all areas of the national electrical code; and excel in analyzing and solving problems with various electrical controls and systems.

Skills

Phlebotomy, Nursing Assistant, EKG Technician, Electric Technician.

Work Experience

Electrical Technician

ABC Corporation - January 1998 – December 2008

- Performed electrical-related wiring and installation for commercial construction projects, including new construction, retrofits, remodels and plant expansions.
- Installed and maintained Fire alarm systems throughout several public school districts.
- Installed video surveillance cameras in multiple commercial facilities.
- Mastered the use of measuring/testing instruments such as ammeters, ohmmeters, voltmeters and testing lamps.
- Installed, adjusted, modified, verified, calibrated and tested operation of power systems, specialized electrical systems and panels, circuitry, electrical chassis, appliances, portable electrical equipment in accordance with all State and Federal Electrical Codes and Ordinances.
- Able to work from verbal instructions, blueprints, wiring diagrams, schematics, technical publications and instructions bulletins.
- Rewired and installed panel boards and switches.

Electrical Technician

ABC Corporation - 1993 – 1998

- Collateral Duty Quality Assurance Rep.) I was hired two weeks after being discharged from the United States Marine Corps as an Electrical Technician level 2.
- During this time my duties included performing preset, reset, and phase inspection as well as repairing other discrepancies with communication, navigation, and weapons systems.
- Was responsible for ensuring that over 30 electronic, communication, navigation, and weapons systems on the H-1 aircraft were fully operational prior to being deployed overseas.
- Within my first year I was promoted to Electrical Technician Level 3 and was a Collateral Duty Quality Assurance Representative.
- Was then put in charge of inspecting all maintenance actions performed by 4 workers under me.
- While working as the Electrical Technician level 3 every inspection assigned to us was completed on schedule or ahead of schedule.

- As well as supervising and inspecting all maintenance actions, I was responsible for the teams tool control, insuring all tool were accounted for at the end of shift each day and upon completion of each maintenance action..

Education

College Preparatory - 1993(Thomas Sumter Academy - Sumter, SC)
